Kersaint Cobb

Naturally stylish

We pride ourselves in offering a little savvy style for everybody. Whether simple, neutral wool is what you're after to let your home breathe or the adventurous shades of our South Pacific wool range sets your heart racing. For those preferring a little rustic tactility, our natural collection of sisal, seagrass, coir and jute could be just the ticket. For the ultimate drama, our Moroccan inspired runners add the wow factor to stairs and hallways. If the quality of real wood floor excites you, we have a gorgeous selection of oak timber flooring, the beauty of which, is that each plank is completely unique with natural colour variation and knots, creating the most individual floor for your home.

Natural Collection

Our plant fibre family represents an exotic floorcovering choice with incredible tactility underfoot. From humble coir matting available in a range of colours including shocking red for that added twist, to a sisal range offering beautiful colour blends or solid tones. Dare to be different and these hardwearing choices will reward you with a floor that injects a huge amount of personality into your home.

Wood Collection

There's nothing quite like the luxury feeling of a real wood floor. Each of our ranges has been hand-selected for quality and sincerity. With such purity comes a varying degree of colour and knots, meaning you benefit from a truly individual floor that carries its story like a badge of honour.

Information

Sampling Service:

We appreciate at this stage you still may not be able to decide upon your final selection, as we have many beautiful floorcoverings to choose from. Which is why we offer a free sampling service for up to 5 samples to see them in the flesh, comparing them within the environment they will be installed and allowing you to narrow down your selection to finally choose the perfect match for your home and décor.

Our Retailers:

Our experienced, carefully selected retailers will help finalise the purchase of your chosen Kersaint Cobb floorcovering whilst also assisting you with installation and aftercare advice. To find your nearest retailer, visit kersaintcobb.co.uk

Installation & Aftercare:

For the very best results, a specialist who is professionally trained in various methods of installing natural materials should install all floorcovering. Your local retailer will be able to assist with expert installation and aftercare advice.

To keep your floorcovering looking its best, a regular suction only vacuum is recommended. Spills should be tackled as quickly as possible to avoid staining. For plant fibre products, avoid liquid carpet shampoos or mousses. For serious damage, contact a professional carpet cleaning company.

INTEC:

INTEC is a recommended additional stain protection for each of our products, which is applied before the floorcovering is delivered. It is suitable for all of our products and works by coating every fibre in a polymer shield, which reduces the impact of spills. With all Jute products, INTEC comes as standard with no extra cost.

Runners

For a unified look throughout your home, partner your runner with one of our complementary sisal broadloom products. Our team can assist to match your design and ensure harmony within your home. All runners come with pre-finished edges.

Wood Grading:

The rustic grade plank is the most popular style of oak flooring in the UK which is why a lot of our real wood heroes this style. The timber has survived many seasons and has many stories to tell, lots of which can be seen through its character and appearance. Our oak will have filled knots and cracks, some colour variation and sapwood, all of which add to its natural beauty and the unique individuality of our wood collection.

Wood Care Kits:

Working closely with WOCA Denmark, we have developed wood care kits for oiled and lacquered floors to keep your floor in tip top condition. Speak to your local retailer or visit our website for further information.

Natural Flooring:

Natural floorcoverings occasionally show irregularities in the weave, stray fibres or small colour variations. These are part of their character and should be accepted as part of their natural charm. Like all natural products, the fibres may fade faster than synthetic carpets in direct sunlight. Slight colour variations may be visible between samples and finished product.

The Carpet Foundation:

Kersaint Cobb are proud members of The Carpet Foundation, which means we're happy to meet the rigorous standards of service and consumer codes of practice, approved and monitored by the Trading Standards Institute. So you know we will only ever provide you with knowledgeable, non-biased advice to help you find the perfect floorcovering for your home.

For all other information relating to any of our collections, visit kersaintcobb.co.uk or call us on 01675 430 430
